

## The Livingston County Library Children's Department

The Livingston County Library Children's Department strives to create an environment that will inspire, excite, and encourage children and families. Literacy begins at birth and we would love to be there every step of the way!

Here are some features that our library has to offer for families.

Books on every level-We have books that are aimed at early readers, beginning readers, chapter book readers, and nonfiction fans.

Email List-Feel free to contact us to be added to our email list. You will receive updates, newsletters and event calendars. You can call us or visit the Children's Department website to sign up online.

Book Bundles-In a hurry? Have a child wanting only space books? Check out our bundles of carefully selected books. Topics change often.

Play to Learn Stations-Reading skills are acquired in a variety of ways and play is one of them! We have a variety of learning centers that change monthly. We also have pretend play items out for families to enjoy together.

1,000 Books Before Kindergarten-Do you have young children? Ask us how to participate in this free early literacy program.
